

# TPM Accounting Service Foreign Workers Programs

Too often the requirements for filing taxes and complying with Service Canada programs for Foreign Agricultural workers are underestimated. This can result in overpayment of tax, denial of rightful benefits or the heavy burden of repaying benefits that should not have been received. At TPM Accounting Services we understand that navigating the rights & obligations of foreign workers and liaising with government agencies can be overwhelming. We provide expert knowledge and advisory services in Spanish that simplifies the system.

“TPM’s expert knowledge of the Foreign Worker Programs allows you to focus on business while ensuring your worker’s rights and obligations are met.”

**SPANISH LANGUAGE SERVICE**  
Living in Canada is a significant adjustment for Foreign Workers. At TPM we make that transition easier by providing fluent Spanish communications and a deep understanding of Hispanic culture.

**TAX & TAX ADJUSTMENTS**  
The CRA has unique provisions for the Seasonal Agricultural and Temporary Foreign Workers. TPM’s significant understanding of these tax implications ensures accurate filing according to program/residency requirements.

**CONSULTING/AGENCY LIAISON**  
Foreign Workers may be entitled to a variety of government services such as EI and CPP. TPM works with a number of growers and their workers to clarify their rights and responsibilities for each of these programs.

**ONLINE SERVICES**  
Whether resolving worker issues in Central and South America or providing services throughout Ontario, online communications and data transfer allow for quick and accessible service anywhere.
